Agriculture in the Classroom

Connecting Kids and Agriculture

Food Farms June, 2016

Pizza - Burgers - Hummus - it all originates on the farm! The Ministry of Agriculture and AITC-SK are excited to partner once again to offer the **Food Farm Program** for **Grades 3-4** students. This program helps students learn about where their food comes from! Grade 3 students visit the garden site in the spring to plant the ingredients needed for a favourite food. The students return in the fall to harvest the ingredients that have grown all summer.

This program is offered in [Saskatoon](#),

Gen AG Career Program Pilot Teachers Needed May, 2016

One in eight jobs in Canada are in the agriculture and food industry! This exciting program challenges students to come up with an idea to market careers in agriculture to high school students. To help students explore the diversity of agriculture careers we will send your class on a field trip and provide websites and other resources. Students will compete for the honour of making their marketing pitch to key influencers in the ag industry!

May 18, 2016
Saskatoon & Area

Biotech Blast is a full day event for Grade 7 & 8, designed to engage students in science related activities through hands-on, interactive sessions lead by members of the science and biotechnology field. For more information or to [register](#) contact Paige at paige@aitc.sk.ca or (306) 933-6158.

Grow a garden indoors!
Create an amazing inquiry-based learning environment in your

program, please contact susan@aitc.sk.ca or (306) 933-6664.

i in Agriculture
University of Saskatchewan
May 4, 2016

Only one spot left for this exciting new program for grade 11 & 12 students. Join us at the College of Agriculture and Bioresources for a day of engaging, hands-on activities that explore the exciting world of agriculture. This event will give students a glimpse of what goes on in each department of the college, while hopefully inspiring a personal connection and future study plans! To register, contact susan@aitc.sk.ca or (306) 933-6664.

classroom. Applications for [Little Green Thumbs](#) open until May 6, 2016!

Lesson and Activity Plans

Did you know that the Food and Agriculture Organization of the UN has named 2016 'International Year of the Pulse'? What is a pulse, you ask? Pulses are podded leguminous crops; harvested as dry grains. Think lentils, beans, field peas, chick peas. Typically high in protein and fibre, they are important around the world as food and feed. Did you know Saskatchewan leads the world in Pulse exports? [Download lesson plans.](#)

The AGRI-ENVIRONMENT: Exploring a Healthy Relationship with the Land

This new educational resource kit complements the **Environmental Sciences 20** curriculum and contains materials to complete hands-on activities that engage students! Click [here](#) for a full description of the resource. If your school doesn't have a kit, please contact rick@aitc.sk.ca or (306) 933-5520.
